WHEREAS, a broad public effort to insure the safe use of economic pesticides and fertilizers without long-term pollution of the environment, which pollution may hold unknown hazards to human and animal health and be detrimental to the general welfare of society, may well be needed; and

WHEREAS, additional research is needed to develop relatively safe, economical, effective pesticides which will not contaminate the environment, and

WHEREAS, certain legal controls may be necessary to involving prohibition of certain pesticides or strict controls on their usage, and education in the wise use of fertilizer; and

ONE HUNDRED FORTY-NINTH DAY

Legislative Chamber, Lincoln, Nebraska
Monday, August 18, 1969

Pursuant to adjournment the Legislature met at 9:00 a.m., President Everroad presiding.

Prayer was offered by the Chaplain.

Prayer

Forgive us, O God, that we are so often anxious, in what we say and do, to have the approval of others, forgetting that it is Thy approval that brings us peace of mind and a clear conscience. Make us aware of the records that Thou art writing—the record that one day will be read by the Judge of all the universe. We need to remember that there is no party in integrity, and no politics in goodness. We pray for Thy grace and Thy help to do better and to be better. Through Christ our Lord. Amen.

LEGISLATIVE JOURNAL—EIGHTIETH SESSION

ONE HUNDRED-FIFTIETH DAY

Legislative Chamber, Lincoln, Nebraksa
Tuesday, August 19, 1969

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Everroad presiding.

Prayer was offered by the Chaplain.

Prayer

Our Father, we open our hearts to Thee, and pray that Thy spirit may indwell each one of us and give us poise and power for the day. We believe in Thee, O God. Give us the faith to believe what Thou hast said. We trust in Thee, O God. Give us the faith to trust Thee for guidance in the decisions we yet must make.

Help us to do our very best this day and be content with today's troubles, so that we shall not borrow the troubles of tomorrow, not carry a grudge concerning anything of yesterday. Save us, therefore, from the sin of worrying, and teach us how to trust in Thee. Amen.

The roll was called and all members were present except Messrs. Knight, Pedersen, Skarda, Swanson and Whitney, who were excused; Miss Reynolds who was excused; and Mr. Keyes who was excused until 9:25 a.m.

Message from the Governor

August 19, 1969

The Nebraska Legislature
State Capitol Building

Re: Marvel Amendment to LB-885

Gentlemen:

This amendment proposed to discontinue 13 important health services on behalf of our state's recipients of public assistance. The present cost of these 13 services is approximately $10,140,000 for the biennium, now paid from the following sources:

(1) Federal funds - $5,805,000

(2) State funds - $2,307,000

(3) County funds - $2,028,000

I wish to bring two matters to your attention in connection with this amendment: first, the saving of state funds is exaggerated for reasons hereinafter stated; and, second, the abolition of necessary health services will result in misery to citizens of our state.
The following is a list and brief description of the 13 services sought to be abolished:

1. Dental services. At present there are no other funds available to purchase dentures for the aged or to alleviate tooth problems of dependent children.

2. Dental hygiene services. This limited service is far less expensive than would be comparable care by a physician licensed to practice medicine and surgery.

3. Podiatrist services.

4. Chiropractic services. Elimination of this service will force a patient to go to the already overcrowded office of a physician at a substantially higher cost to the medical assistance program.

5. Optometrist services. Examinations with regard to the need for glasses from other sources will cost substantially more, rather than less, money.

6. Osteopath services.

7. Masseur services.

8. Physical therapy services.

9. Health aids.

10. Home health services. The cost of having someone come to a patient's home during temporary periods of illness or disability is comparatively small. Elimination of this service will frequently result in taking the patient out of his home and placing him in a hospital at a per diem cost of $40.

11. Nursing services. Availability of a visiting nurse to come to the home during temporary periods of disability is actually a saving when compared to the substantially higher cost of placing the patient in a hospital. If nursing services are no longer available, there will be no alternative but to place the patient in a hospital even though a visiting nurse could provide care in the home.

12. Drugs. This is the largest single item sought to be abolished. It is shocking to suggest that the hundreds of diabetics are going to have their insulin discontinued.

13. Appliances. Abolition of this service will make it impossible for recipients of public assistance to purchase necessary glasses, hearing aids, wheel chairs or crutches. It is absolutely impossible for most Nebraska counties to provide these services from their limited general relief funds.

I urge you to reconsider the Marvel amendment in the interest of the welfare of thousands of our needy citizens.

Sincerely yours,

(Signed) Norbert T. Tiemann, Governor

Sec. 59. All officers and employees, including elected officials, of the state, or of any of its political subdivisions, who, ~~having been involuntarily required~~ *leave a position other than temporary,* to undergo military training with the armed forces of the United States or ~~having been involuntarily required to~~ undertake military duty in the active service of the state, shall be entitled to a leave of absence from such civil employment for the period of such training or service, not to exceed four years, plus in each case any additional period in which he was unable to obtain orders relieving him from active duty, plus any period of time hospitalized incident to active duty, without loss of status or efficiency rating, and without loss of pay during the first fifteen work days of such leave of absence. 2. Show the matter in sections 1 to 7 as new matter.

The motion prevailed with 31 ayes, 0 nays and 18 not voting.

UNANIMOUS CONSENT—Print in Journal

Mr. Duis asked unanimous consent to have the following Attorney General's opinion printed in the Journal. No objections. So ordered.

The Honorable Herbert J. Duis
Member of the Legislature
State Capitol Building
Lincoln, Nebraska

Dear Senator:

You have written posing the following question:

> "My question is, that during Final Reading, should not those items exceeding the Governor's Budget and those items omitted from the Governor's Budget be voted upon separately to determine if they are to receive 33 votes on Final Reading to make them operative?"

You state that the point you are trying to make is that it might be possible for you to change your vote while the bill is proceeding from General File to Final Reading and that this might affect specific items on Final Reading.

Your attention is invited to Article III, Section 14, Constitution of Nebraska, which provides in part as follows:

> "Every bill and resolution shall be read by title when introduced, and a printed copy thereof provided for the use of each member, *and the bill and all amendments thereto shall be printed and read at large before the vote is taken upon its final passage.* * * *." (Emphasis supplied.)

Your attention is also invited to Article III, Section 13, Constitution of Nebraska, which states in part:

> "* * *. No bill shall be passed by the Legislature unless by the assent of a majority of all members elected to each House of the Legislature, and the question upon final passage shall be taken immediately upon its last reading and the yeas and nays shall be entered upon the journal. * * *."

The Constitution makes no provision for the voting upon bills by section on Final Reading. As a member of the Legislature your opposition to any particular section of the appropriation bill or any act of the Legislature can be made known at the time the bill is proceeding in accordance with the legislative process. The vote upon Final Reading is upon the bill as printed with all the amendments incorporated therein under the foregoing provisions of the Constitution.

Yours very truly,

CLARENCE A. H. MEYER
Attorney General

MOTION—Return LB 438 to General File

Mr. Proud moved to return LB 438 to General File for the following specific amendment:

In section 1 of the committee amendment at line 5 strike the words "good or just cause" and insert after the word "on" the words "other than frivolous reasons. Attempts to upgrade the teaching quality in a school system shall not constitute a frivolous reason."

The motion prevailed with 27 ayes, 0 nays and 22 not voting.

The nonresident owner of a fleet operating the same in interstate commerce shall annually, on or before December 1 of each year, report to the ~~Tax Commissioner~~ *Department of Motor Vehicles*, on forms to be prescribed by ~~him~~ *department*, information sufficient to enable ~~him~~ *it* to determine value for tax purposes of each motor vehicle in such fleet which the nonresident owner anticipates being in such fleet on the following January 1 at 12:01 a.m. Any additions or deletions to such fleet shall be reported, on appropriate forms to be prescribed by the ~~Tax Commissioner~~ *department*, within thirty days of such addition or deletion; *Provided*, that if any vehicle which is a part of such fleet is exchanged or traded by the owner of such fleet for another vehicle during the tax year, and such vehicle shall be a part of such fleet, such newly-acquired vehicle shall be taxed as part of such fleet for the remainder of the tax year by the payment of any additional tax due as computed under sections 77-1241.04 to 77-1241.06. If the newly-acquired vehicle has a valuation lower than that of the vehicle it replaced, a refund shall be computed on the balance of the unexpired tax year. Vehicles acquired by the owner of such fleet after the commencement of the tax year and subsequently added to such fleet shall be taxed by applying the mileage percentage used in the original application for such fleet for such tax year to the tax due with respect to such vehicle for the remainder of the tax year.

Sec. 4. That section 77-1241.04, Revised Statutes Supplement, 1967, be amended to read as follows:

77-1241.04. The ~~Tax Commissioner~~ *Department of Motor Vehicles* shall determine:

LEGISLATIVE JOURNAL—EIGHTIETH SESSION

ONE HUNDRED FIFTY-FIRST DAY

Legislative Chamber, Lincoln, Nebraska
Wednesday, August 20, 1969

Pursuant to adjournment, the Legislature met at 9:00 a.m., Mr. Wylie presiding.

Prayer was offered by the Chaplain.

Prayer

O God, we remember Thy promise that wherever two or three are gathered together in Thy name, there Thou art in the midst of them. We claim that promise this morning, and pray that each of us may be aware of Thy presence, for Thou knowest our needs, and how inadequate we feel ourselves to be in the presence of problems and challenges. If Thou wilt help us, O Lord, then shall we be better than we are, wiser than we know, and stronger than we dream. In this prayer we bring to Thee the members of this body, its officers and its servants, for Thy blessing; men and women who feel the weight of responsibility and the need of divine guidance; men and women who are often tempted and who need the support of Thy grace. Give them the courage to do the right as Thou hast given them the wisdom to see the right, and may we do the right in the spirit of harmony and love. For Jesus' sake. Amen.

The roll was called and all members were present except Messrs. Bloom, Budd and Keyes who were excused until 9:30 a.m.; Mr. Batchelder who was excused until 10:15 a.m.; Mr. Warner who was excused until 9:45 a.m.; Mr. Ziebarth who was excused until 9:15 a.m.; and Messrs. Dear Mr. Srb:

In compliance with the laws of the State of Nebraska, Section 84-1315, an annual audit has been made of the State Employees Retirement System by the Director of Insurance for the period January 1, 1968 to December 31, 1968.

The report made to the Director of Insurance by the Department Actuary reveals the following:

Gross Contributions	$2,302,261.36
Balances in funds and activity during the year:	
Past Service Balance	$1,460,740.02
Future Service Balance	8,145,394.90
Total	$9,606,134.92
Interest Accumulations for the Calendar Year:

The carrier paid interest for the year 1968 above the guaranteed rate of 5% on the average monthly balance. This amounted to 6.01% on Future Service accounts.

The Actuary report "indicates that the Past Service Liability will be completely funded at least by 1978 and probably sooner."

LEGISLATIVE JOURNAL — EIGHTIETH SESSION

ONE HUNDRED FIFTY-THIRD DAY

Legislative Chamber, Lincoln, Nebraska
Friday, August 22, 1969

Pursuant to adjournment, the Legislature met at 9:00 a.m., Speaker Warner presiding.

Prayer was offered by the Chaplain.

Prayer

Eternal Father, grant to the members and officers of this body a moment of quiet before they pick up the duties of the day. Turn their thoughts to Thee, and open their minds to Thy spirit, that they may have wisdom in their decisions, understanding in their thinking, love in their attitudes, and mercy in their judgments. Let them not think, when the prayer is said, that their dependence on Thee is over, and forget Thy counsels for the rest of the day. Rather from these moments of heart searching may there come such a sweetness of disposition that all may know Thou art in this place. From this holy interlude may there flow light and joy and power that will remain with them until night shall bring Thy whispered benediction, "Well done, thou good and faithful servant." So help us this day through Christ our Lord. Amen.

The roll was called and all members were present except Messrs. Burbach, Carstens, Klaver, Knight, Moylan, Pedersen, Proud, Schmit, Schreurs, Swanson, Waldo, Waldron and Wylie, who were excused.

August 21, 1969

Senator Terry Carpenter
State House
Lincoln, Nebraska

Dear Senator Carpenter:

We have previously delivered to you a proposed amendment to Legislative Bill 1438 which amendment would amend Section 53-180.05 by adding a penalty provision which was inadvertently omitted at the time Section 53-186.01 was passed in 1965.

We have had several such areas wherein local officials have desired to prosecute persons consuming alcoholic liquors in unlicensed establishments but have been unable to proceed due to the absence of a penalty and it would be desirable that this amendment be adopted into the law. We are enclosing herewith a copy of the amendment for your information and use.

Yours very truly

LEGISLATIVE JOURNAL—EIGHTIETH SESSION

ONE HUNDRED FIFTY-FIFTH DAY

Legislative Chamber, Lincoln, Nebraska
Tuesday, August 26, 1969

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Everroad presiding.

Prayer was offered by the Chaplain.

Prayer

Dear God, this morning we commit ourselves to Thee so that through that commitment we might be saved from the things which slowly destroy our innermost selves, from the petty peevishness which turns adulthood into childishness, from the fear of being ourselves; from making mountains out of molehills; from anxiety about tomorrow which makes us sick today; from the walls which the mind builds between us and other people; from centering so much concern upon ourselves that we miss the joy of serving others. So help us to stand up and be counted for Thee this day, in the spirit of Christ. Amen.

The roll was called and all members were present except Messrs. Danner, Knight and Pedersen, who were excused.

Introduced by Eugene T. Mahoney, 5th District; Bill K. Bloom, 20th District; William R. Skarda, Jr., 7th District; John E. Knight, 26th District; Harold T. Moylan, 6th District

A BILL FOR AN ACT for submission to the electors of an amendment to Article I, section 4, of the Constitution of Nebraska, relating to religious freedom; to provide legislative authority to make grants for students enrolled in nonpublic schools as prescribed; to provide for the submission of the proposed amendment to the electors at the primary election in May, 1970; to provide for the manner of submission and form of ballot; to provide the effective date thereof; and to repeal sections 1, 2, and 3, Legislative Bill 1083, Eightieth Session, Nebraska State Legislature, 1969.

Be it enacted by the people of the State of Nebraska,

Section 1. That at the primary election in May, 1970, there shall be submitted to the electors of the State of Nebraska for approval the following amendment to Article I, section 4, of the Constitution of Nebraska, which is hereby proposed by the Legislature:

"Sec. 4. All persons have a natural and indefeasible right to worship Almighty God according to the dictates of their own consciences. No person shall be compelled to attend, erect or support any place of worship against his consent, and no preference shall be given by law to any religious society, nor shall any interference with the rights of conscience be permitted. No religious test shall be required as a qualification for office, nor shall any person be incompetent to be a witness on account of his religious belief; but nothing herein shall be construed to dispense with oaths and affirmations. Religion, morality, and knowledge, however, being essential to good government, it shall be the duty of the Legislature to pass suitable laws to protect every religious denomination in the peaceable enjoyment of its own mode of public worship, and to encourage schools and the means of instruction, and in furtherance of such objectives the Legislature may make grants for the benefit of students enrolled in nonpublic schools as reimbursement for the part of their tuition that is allocable to instruction in state-approved courses; *Provided,* that such reimbursement shall not exceed one-third of the per student cost in the public school district in which the student resides nor shall any plan of reimbursement breach the separation of church and state required by the First Amendment to the Constitution of the United States."

LEGISLATIVE JOURNAL — EIGHTIETH SESSION

ONE HUNDRED FIFTY-SIXTH DAY

Legislative Chamber, Lincoln, Nebraska
Wednesday, August 27, 1969

Pursuant to adjournment, the Legislature met at 9:05 a.m., President Everroad presiding.

Prayer was offered by the Chaplain.

Prayer

O Lord, save this moment from being a mere gesture of custom or convention, and make it a genuine experience for each of us in this place, as we call upon Thee for guidance and help. We have felt Thee near and beside us in the experience of worship; help us now to feel Thy nearness in the business of the day—the unseen Senator, present and voting. Vote through these men and women, that what they say and do may be in accordance with Thy will for this state that we love so dearly. Thou hast said, "When ye stand praying, forgive; if you have anything against anyone." Give us grace to lay aside all bitterness or resentment we may be nursing in our hearts, lest their acid eat into our peace and corrode our spirits. Thou hast said, "It is more blessed to give then to receive." Give us grace to think not of what we can get but of what we can give, that a new spirit may come into our work here with a new vision and a new purpose, and Thou wilt delight to bless. In the name of Christ. Amen.

The roll was called and all members were present except Mr. Nore who was excused until 9:55 a.m.; and Messrs. Knight, Kremer, Marvel and Pedersen, who were excused.

Message from the Governor

August 27, 1969

The President, the Speaker and
Members of the Legislature
State Capitol
Lincoln, Nebraska

Senators of the Eightieth Session:

I am returning to you LB 205 without my signature for the following reasons:

1. I have long supported the idea of a co-ordinating council for higher education. My representative testified in favor of LB 205, as originally introduced and discussed, at its public hearing. I would still support such a council.

I cannot, however, support the commission which is created by this new bill. While this bill carries the same bill number as the previous co-ordinating council bill, it is not the same bill. This bill, as now amended, has never had a public hearing.

It is more appropriate, I feel, for a commission so heavily weighted with senators and designed to study and advise the Legislature to be a legislative study committee. The procedures establishing such a committee are clearly spelled out and are perfectly suited to such a study. Such a committee would, of course, have the full co-operation of everyone in the other branches of government.

It is extremely undesirable to add one more law to our Statutes when it is not needed. Likewise, it is bad precedent to bypass the traditional method for establishing a legislative study committee and instead create one more statutory committee to do the same thing that legislative study committees do.

2. The Attorney General advises me that the bill contains two diverse objects and purposes in violation of Section 14 of Article III of the Constitution of the State of Nebraska. By itself, this is sufficient reason for me to return the bill unsigned.

Respectfully submitted,

(Signed) Norbert T. Tiemann, Governor

Pursuant to adjournment the Legislature met at 11:12 a.m., Speaker Warner presiding.

Prayer was offered by the Chaplain.

Prayer

O, God, we pray for Thy spirit of truth in our minds this day, that things of great significance may happen here. We feel deep down in our hearts that without Thy guidance we cannot do anything but with Thee we can do all things. Let us not be frightened by the problems that confront us, but rather give Thee thanks that Thou hast matched us with this hour. May we resolve, God helping us, to be part of the answer and not part of the problem. For Jesus' sake. Amen.

The roll was called and all members were present except Messrs. Burbach, Klaver, Knight, Mahoney, Pedersen and Wiltse, who were excused.

LEGISLATIVE JOURNAL — EIGHTIETH SESSION

ONE HUNDRED FIFTY-EIGHTH DAY

Legislative Chamber, Lincoln, Nebraska
Friday, August 29, 1969

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Everroad presiding.

Prayer was offered by the Chaplain.

Prayer

Gracious God, in consuming efforts and in the press of our activities we often lose sight of Thee. So we turn to Thee at the beginning of the day in this moment of silence because we forget Thee where we should have remembered Thee; because we shall need Thee again in the same places. So wilt Thou bless us with a new consciousness of Thy presence through which we may be aided in living a life of faith and goodness before Thee in the midst of our family, our friends, our colleagues, our people and our Lord. Amen.

The roll was called and all members were present except Mr. Johnson who was excused until 9:45 a.m.; and Messrs. Moylan and Pedersen, who were excused.

Message from the Governor

August 29, 1969

The President, the Speaker and
Members of the Legislature
State Capitol
Lincoln, Nebraska

Senators of the Eightieth Session:

I am returning to you LB-6 without my signature for the following reasons:

1. It is extremely questionable whether the bill is constitutional. Article I, Section 4, of the Nebraska Constitution states:

> ". . . no preference shall be given . . . to any religious society, . . ."

It would appear LB-6 grants preferential treatment and could be described as class legislation. I attach a copy of an opinion from the Attorney General which concludes that it would be difficult to uphold the constitutional validity of LB-6.

2. I strongly oppose singling out members of one particular religious faith for special treatment, even if that treatment seems

to be preferential. Preferential treatment for special religious groups can quickly change into harmful and dangerous treatment for those same groups.

It may be possible to redraft this to avoid both the constitutional problem and the problem created by singling out a religious faith for special treatment. I would not be opposed to the bill if it were so redrafted.

Respectfully submitted,

(Signed) Norbert T. Tiemann, Governor

August 26, 1969

Honorable Norbert T. Tiemann
Governor of Nebraska
State House
Lincoln, Nebraska

Dear Governor:

You ask if the proposed amendment to L. B. 6 is constitutional when it provides in part that a rabbi of the Jewish faith is exempt from complying with the requirements necessary to be a funeral director other than the payment of the license fee.

It is our opinion that if this were tested in our courts the validity of the amendment would be difficult to sustain.

The amendment provides:

"* * * * *.

"* * *; *Provided, that a rabbi of the Jewish faith may become a funeral director for the purpose of preparing the body of a dead human body of a member of the Jewish faith for burial or disposition, or direct or supervise burial of such a dead human body, and may be designated as a funeral director;* * * *.

"* * * * *.

"* * *; *Provided, that a rabbi of the Jewish faith shall be exempt from any of the qualifications and examinations as required by sections 71-1325 to 71-1338, and may be granted a license upon payment of the fee as provided in subsection (2) of this section.*

"* * * * *.

"* * *; *Provided, that a rabbi of the Jewish faith may be granted a license upon making application for a funeral*

> *director's license and payment of the fee as provided in section 71-1327.* * * *.
>
> "* * * * *.
>
> "* * *; *Provided, that a rabbi of the Jewish faith shall be exempt from the examination.* * * *.
>
> "* * * * *.
>
> "* * *; *Provided, that a rabbi of the Jewish faith shall be exempt from the requirements for a license as provided in this section.*
>
> "* * * * *."

Article I, Section 4 of the Nebraska Constitution, provides, in part:

> "* * *, and no preference shall be given by law to any religious society, * * *."

On its face the amendment appears to give a preference to the Jewish faith to the exclusion of other faiths.

Article III, Section 18 of the Nebraska Constitution, provides, in part:

> "The Legislature shall not pass local or special laws in any of the following cases, that is to say:
>
> "* * * * *.
>
> "Granting to any corporation, association, or individual any special or exclusive privileges, immunity, or franchise whatever; * * *. In all other cases where a general law can be made applicable, no special law shall be enacted."

It is apparent from reading the amendment that this exception of rabbis from meeting the various requirements necessary to be a qualified funeral director is based on religious beliefs. By making the exception apply to only rabbis of the Jewish faith it excludes the possibility of including members of any faith with similar beliefs, whether in existence at this time or in the future, from taking benefit of the exception.

In Galloway v. Wolfe, 117 Neb. 824, 223 N. W. 1, our Court had before it legislation which prohibited dancing on Sunday by anyone fourteen years old and over. The law specifically excluded anyone from a metropolitan city that had a public welfare board.

Our Court said:

"* * * * *.

"* * *. In *State v. Murray*, 104 Neb. 51, 55, the following statement was approved: 'By class legislation, we understand such legislation as denies rights to one which are accorded to others, or inflicts upon one individual a more severe penalty than is imposed upon another in like case of offending.'

"* * * * *."

The Court also said:

"* * * * *.

"* * *. As a practical proposition they are prevented from ever entering that class, and so within the rule laid down in *State v. Kelso*, 92 Neb. 628, that a classification which limits its provisos to a certain class then in existence, excluding all others from ever entering such class by growth, development, or other cause, is invalid. * * *.

"* * * * *."

For the foregoing reasons, it is our opinion that it would be difficult to uphold the constitutionality of the amendment to L. B. 6.

Very truly yours,

CLARENCE A. H. MEYER
Attorney General

(Signed) James J. Duggan
Assistant Attorney General

Mr. Simpson Presiding

LEGISLATIVE JOURNAL — EIGHTIETH SESSION

ONE HUNDRED FIFTY-NINTH DAY

Legislative Chamber, Lincoln, Nebraska
Tuesday, September 16, 1969

Pursuant to adjournment, the Legislature met at 1:30 p.m., President Everroad presiding.

Prayer was offered by the Chaplain.

Prayer

Grant us, Lord, the spirit to think and do such things as are right, that we who cannot do anything that is good without Thee, may by Thee be enabled to live according to Thy will. We thank Thee that in work and play, in joy and sorrow, Thou art the friend and companion of each of us. When we do wrong and grieve Thee, Thou art ready to forgive; when we do right Thou art glad. May no hatred or envy dwell in our hearts, but keep our hands from selfish deeds and our lips from unkind words. Teach us to bring cheer to any who suffer and to share freely with those who are in need. So may we help Thee, our Father, to bring peace, goodwill, and justice to others. Amen.

The roll was called and all members were present except Messrs. Bloom, Hasebroock, Johnson and Kremer, who were excused.

The President, the Speaker and
Members of the Legislature
State Capitol
Lincoln, Nebraska

Senators of the Eightieth Session:

I am returning to you herewith LB-1425 without my signature pursuant to Article IV, Section 15, of the Nebraska Constitution which says that the Governor

> ". . . may disapprove any item or items of appropriation contained in bills passed by the Legislature, . . ."

The items which I am disapproving in LB-1425 are as follows:

1.	Sec. 4 (1) (1) — Land acquisition (Medical Center, University of Nebraska)	$1,000,000
2.	Sec. 4 (1) (m) — Land acquisition (University of Nebraska at Omaha)	$1,350,000
3.	Sec. 4 (1) (n) — Home Economics facility (East Campus)	$1,225,000

4.	Sec. 4 (5) (b) — Remodeling of Administration Building	$1,500,000

I am disapproving these items because I am convinced that state government can best serve the citizens of the state by not constructing these facilities at this time. Elimination of these items from the budget will still provide a capital construction budget insuring continued progress in state government compatable with fiscal responsibility to Nebraska citizens.

Respectfully submitted,

(Signed) Norbert T. Tiemann, Governor

Mr. Duis moved to reconsider action on LB 1425.

The Chair ruled the motion out of order.

Mr. Duis asked unanimous consent to withdraw his original motion. No objections. So ordered.

MOTION—Deliver LB 1425 to Secretary of State

Speaker Warner moved that LB 1425 be delivered to the Secretary of State's office, and that the record of the Legislative Journal show it is the opinion of the Legislature that LB 1425 is now law without the signature of the Governor, and that the actions of the Governor to strike certain items were not valid inasmuch as all items stricken had received 33 votes or more at some point of consideration and thus were not subject to veto, or the items had never received 33 votes at any point of consideration and hence were not valid appropriations.

Mr. Carpenter moved to amend the Warner amendment by adding "and intent" after "opinion" in line 2.

The motion prevailed.

The Warner motion, as amended, was adopted with 37 ayes, 0 nays and 12 not voting.

Mr. Carpenter moved that a copy of this motion be sent with the bill to the Secretary of State.

1. In rule 11, section 3, strike paragraphs 4, 5, 6, and 7, and in lieu thereof insert the following:

"A copy of every bill introduced shall be transmitted by the Clerk to the Legislative Fiscal Analyst. The Legislative Fiscal Analyst shall review each bill and make an estimate of the anticipated change in state expenditures or revenue under the provisions of the bill. The Legislative Fiscal Analyst shall prepare a statement to be known as a fiscal note to be attached to each bill prior to its public hearing by a committee, or its first consideration on General File if the bill is referred directly to General File. The fiscal note shall set forth the fiscal impact of the bill as determined by the Legislative Fiscal Analyst. No bill which has a fiscal impact of more than five thousand dollars shall be heard by a committee or considered on General File unless the fiscal note is attached.

In determining the fiscal impact of any bill, the Legislative Fiscal Analyst shall request the appropriate department or other entity of state government which will be affected by the bill to prepare the fiscal note within five calendar days.

The Legislative Fiscal Analyst shall review the fiscal note prepared by the department or other entity, and shall also request a review of such fiscal note by the Budget Division of the Department of Administrative Services. The statement by the Budget Division of the Department of Administrative Services shall be attached to and become a part of the fiscal note. The Legislative Fiscal Analyst shall include in the fiscal note any exceptions to the conclusions of the department or other entity and of the Budget Division of the Department of Administrative Services.

The fiscal note shall be delivered by the Legislative Fiscal Analyst to the Clerk within ten calendar days of receipt of a copy of the bill for analysis. The Clerk shall attach the fiscal note to the bill and to all copies prepared for members.

When amendments to a bill are adopted by a committee or the Legislature, and such amendments would change the fiscal impact of the bill, the appropriate changes shall be made in the fiscal note.

When the Legislative Fiscal Analyst determines that the fiscal impact of a bill will be less than five thousand dollars, it shall not be necessary to prepare a detailed fiscal note, and the fiscal note may merely state this fact.

When any bill proposes adoption of a new program for which appropriations have not previously been made, an appropriations bill for the purposes of funding the provisions of such bill shall be prepared from the information contained in the fiscal note. Such appropriations bill shall be introduced by the introducer of the original bill, shall bear the number of the original bill with the letter "A" added (for example LB 1A), and shall accompany the original bill through all stages of the legislative process.".

2. The legislative bill drafter is hereby directed to prepare any amendments to other Rules of the Legislature made necessary by adoption of this amendment, and to submit such amendments to the Rules Committee.

MOTION—Return LB 798 to Select File

Mr. Pedersen moved to return LB 798 to Select File for the following specific amendment:

1. Amend the bill by adding three new sections to read as follows:

"Sec. 2. That section 79-403, Reissue Revised Statutes of Nebraska, 1943, as amended by section 1, Legislative Bill 1378, Eightieth Session, Nebraska State Legislature, 1969, be amended to read as follows:

79-403. (1) Any freeholder or freeholders, person in possession or constructive possession as vendee pursuant to a contract of sale of the fee, holder of a school land lease under section 72-232, or entrant upon government land who has not yet received a patent therefor may file a petition with a board consisting of the county superintendent, county clerk, and county treasurer, asking to have any tract of land described therein set off from a Class I or Class II district in which it is situated and attached to some other district. The petition shall state the reasons for the proposed change and shall show with reference to the land of each petitioner: (a) That the land therein described is either owned by the petitioner or petitioners or that he or they hold a school land lease under section 72-232, are in possession or constructive possession as vendee under a contract of sale of the fee simple interest, or have made an entry on government land but have not yet received a patent therefor; (b) that the land is located in a district that adjoins the district to which it is to be attached; (c) that the land proposed to be attached has children of school age who have resided thereon with their parents or guardians for not less than forty days; and (d) either that they are each more than two miles from the schoolhouse in their own district, and at least one half mile nearer to the schoolhouse or a school bus route of the adjoining district, which distance shall be measured by the shortest route possible upon section lines or traveled roads open to the public or that the route to the schoolhouse in the adjoining district is more practicable and, for at least half its distance, over hard-surfaced roads and the distance to the schoolhouse in the adjoining district does not exceed the distance to the schoolhouse in their own district by more than six miles or that they have personally paid tuition for one or more of their children to attend school in the other district over a period of two or more consecutive years, or that they reside in a Class I or Class II district and own, or lease under section 72-232, have possession or constructive possession under a contract of sale as vendee or have made entry on government land but have not yet received a patent therefor, not less than eighty acres of land in an adjoining Class II, III, IV, or V district to which they wish to transfer additional land. For purposes of this subsection, children of school age shall mean children who are attending, *or who may attend, a* public school in the school district from which the land is to be set off except children whose parents or guardians have personally paid tuition for such children to attend school in the other district for two or more consecutive years. If the land sought to be transferred pursuant to this subsection is also situated in a Class VI school district, the land shall not be set off from such Class VI district unless the requirements of subsection (2) of this section have also been met. The petition shall be verified by the oath of the petitioner or petitioners. The board may, after a public hearing on the petition, thereupon change the boundaries of the districts so as to set off the land described in the petition and attach it to such adjoining district as is called for in the petition whenever they deem it just and proper and for the best interest of the petitioner or petitioners so to do. Notice of the filing of the petition and hearing thereon before the board shall be given at least ten days prior to the date of such hearing, by one publication in a legal newspaper of general circulation in each district, and by posting a notice on the outer door of the schoolhouse in each district affected thereby, which notice shall designate the territory to be transferred. Petitions requesting transfers of property across county lines shall be addressed jointly to the county superintendents of the counties concerned, and the petitions shall be acted upon by the county superintendents, county clerks, and county treasurers of the counties involved as one board, with the county superintendent of the county from which the real estate is sought to be transferred acting as chairman of the board. Appeals may be taken from the action of such board, or when such board fails to agree, to the district court of the county in which the real estate is located within twenty days after entry of such action on the records of the board by the county clerk of the county in which the real estate is located or within twenty days after March 15 if the board fails to act upon such petition as provided in section 2 of this act, in the same manner as appeals are now taken from the action of the county board in the allowance or disallowance of claims against the county.

(2) Any freeholder or freeholders, person in possession or constructive possession as vendee pursuant to a contract of sale of the fee, holder of a school land lease under section 72-232, or entrant upon government land who has not yet recevied a patent therefor may file a petition with a board consisting of the county superintendent, county clerk, and county treasurer, asking to have any tract of land described therein set off from any Class I, II, or VI school district prior to January 1, 1970, or any time from a nonaccredited Class I, II, III or VI district in which it is situated and attached to an accredited district in the county of the residence of the petitioner or an adjoining county thereto. The petition shall state the reasons for the proposed change and shall show with reference to the land of each petitioner: (a) That the land therein described is either owned by the petitioner or petitioners or that he or they hold a school land lease under section 72-232, are in possession or constructive possession as vendee under a contract of sale of the fee simple interest, or have made an entry on government land but have not yet received a patent therefor; (b) that the land proposed to be attached has children of school age who have resided thereon with their parents or guardians for not less than forty days prior to filing the petition; (c) that the land described therein is located in a Class I, II, III or VI school district as provided in this subsection (2), and is to be attached to an accredited school district in the county of the residence of the petitioner or an adjoining county thereto; and (d) that such petition is approved by a majority of the members of the school board or board of education of the district to which such land is sought to be attached. If the land sought to be transferred pursuant to this subsection is to be set off from a Class I, II, III or VI district and attached to an accredited Class VI district, the land shall not be set off and attached to such Class VI district unless the petition states that the land is to be attached to a Class I district located within the boundaries of such Class VI district, and a majority of the members of the school board or board of education of both such Class VI and Class I districts approve such petition. All procedures

as provided in subsection (1) of this section including provisions for the transfer of property across county lines shall apply to this subsection except that the board shall in this instance change the boundaries where it is found that all provisions as herein set forth have been met. For purposes of this subsection, children of school age shall mean children who are attending public school.

Sec. 3. That original section 79-403, Reissue Revised Statutes of Nebraska, 1943, as amended by section 1, Legislative Bill 1378, Eightieth Session, Nebraska State Legislature, 1969, is repealed.

REPORT OF THE EXECUTIVE BOARD OF THE LEGISLATIVE COUNCIL

August 28, 1969

Report of the Executive Board of the Nebraska Legislative Council on proposed Studies for the 1969-71 interim period.

According to Section 3 of Rule 15 of the Rules of the Nebraska

Legislature, Resolutions proposing that studies be made by the Legislative Council are to be referred to the Executive Board of the Legislative Council, which Board is to make recommendations to the Legislature that the proposed studies be made or rejected.

This Report covers the forty-three Resolutions introduced during the session proposing interim studies.

The Executive Board of the Legislative Council is recommending that the following Study Committees be created to function during the coming interim period. It will be noticed that some of these Committees have been assigned projects proposed by more than one Resolution. There are two reasons for this grouping of Resolutions under one Committee as is being recommended in several cases. First, the large number of Resolutions introduced seemed to require such an approach. This will allow the pursuance of a number of study projects while keeping at a minimum the burden on individual senators in serving on interim committees. Second, many of the Resolutions proposed similar or closely-related study projects, and it seemed logical to group them under one study Committee.

WHEREAS, the public power system was established by, and operates under, the laws of the State of Nebraska; and

3. That the study to be undertaken be all-inclusive, that it include all public power agencies, including municipalities, and that it cover any and all aspects of the state's public power system as determined by this committee.

Mr. Carpenter offered the following amendment, which was adopted:

Amend LR 105 to include a new paragraph:

LEGISLATIVE JOURNAL—EIGHTIETH SESSION

ONE HUNDRED SIXTY-SECOND DAY

Legislative Chamber, Lincoln, Nebraska
Friday, September 19, 1969

Pursuant to adjournment, the Legislature met at 9:05 a.m., Speaker Warner presiding.

Prayer was offered by the Chaplain.

Prayer

O God, be merciful when we pray with half our heart or listen with half our mind, and pity us that we are torn as we are, bedeviled with compromises. Vainly we long for life without such difficult decisions, yet we know that we have only ourselves to blame for the tensions in which we live. We need to pray that our own eyes will be opened to the truth. Deliver us from the reservations that would pray: "Thy kingdom come—but not yet; Thy will be done—by other people." Help each of us to see that if Thou art to lead our State, Thou must be permitted to lead us. If Thy will is to be done, we are the ones who must be doing it. O God, consider not our cowardice, but forgive us our failures. Hearken to those prayers of our hearts which come to us in high moments when we forget ourselves and think first of Thee and others. Amen.

The roll was called and all members were present except Mr. Clark, who was excused until 10:20 a.m.; and Mr. Danner who was excused.

WHEREAS, Hugo F. Srb will retire as Clerk of the Nebraska Legislature as of the date of the adjournment sine die of the Eightieth Session of the Nebraska Legislature; and

WHEREAS, Mr. Srb has been Clerk of the Legislature since the first session of the Unicameral Legislature convened on January 5, 1937, which was the Fifty-Second Session of the Nebraska Legislature; and

WHEREAS, Mr. Srb had also served as a State Senator from Dodge County in the 1931 and 1933 sessions of the former bicameral Legislature; and

WHEREAS, there is a need for the preparation of an authoritative history of the adoption of the Unicameral Legislature in Nebraska, and of its role in the government of this state over the past thirty-two years, not only as an addition to the historical archives of Nebraska, but as an important tool in the instruction of the school children of Nebraska in the functioning of their state government; and

WHEREAS, there is no person better qualified by knowledge and experience to prepare this history than Mr. Srb.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN EIGHTIETH SESSION ASSEMBLED:

1. That the Legislature hereby expresses its appreciation to Mr. Hugo F. Srb for his many years of loyal and devoted service to the Unicameral Legislature and the State of Nebraska.

2. That Mr. Srb be commissioned to prepare a history of the origin and development of the Nebraska Unicameral Legislature, and be designated as Clerk of the Legislature Emeritus.

3. That Mr. Srb be paid a salary during the course of this project as determined by the Executive Board of the Legislative Council, which would be for an estimated period of two years, and that suitable office space and clerical assistance be furnished him in the State Capitol.

Mr. Holmquist moved to suspend the rules and take up the resolution today.

The motion prevailed with 43 ayes, 0 nays and 6 not voting.

Mr. Carpenter moved to instruct the Executive Board to approve a salary for the new position of Hugo Srb equal to that which he has been receiving for a period not to exceed two years and to provide for expenses necessary in carrying out his duties in compiling the history of Nebraska.

The motion prevailed.

LR 107 was adopted by unanimous consent.

Mr. Srb addressed the members.

The Chair requested that the remarks relating to LR 107 be included in the official record.

President: May I have the attention of the members? I would at this time like to read a resolution by every member of the Body, LR 107. (Reads Resolution) Senator Holmquist.

Senator Holmquist: Mr. President, Members of the Legislature, I move for — that the rules be suspended and the Resolution be adopted.

President: Motion is to suspend the rules and take up the Resolution today. Is there any discussion on taking up the Resolution today? Senator Nore.

Senator Nore: I think this is a rather cruel and abrupt way of doing this. Now there is a lot of work to be done and I think we'd better be sure that he is going to have the same salary from now on, that he's getting now. Something to that effect. Because this thing looks to me like it's a sort of a shotgun deal to me.

President: Senator Holmquist.

Senator Holmquist: Mr. President, Members of the Legislature, the Executive Board of the Legislative Council has set a retirement date as the end of the session. And had decided that the end of December would be the closing date relative to the salary that Hugo has been drawing as Legislative Clerk. We, as yet, have not set a salary that he will get for doing the work that is requested of him relative to writing the history of the Unicameral or a book that can be used as a textbook in secondary education.

President: Motion pending is the suspension of the rules after which the motion will be made to adopt the resolution. Is there further discussion on the suspension? Senator Nore.

Senator Nore: Mr. Chairman, could this be laid over until the Executive Board makes up their minds as to what they are going to do? In the way of salary?

President: Are you asking me if it can be? Of course, it can be.

Senator Nore: I think it should be, we want to know what is going to happen, we don't want anything to happen here that is undesirable.

President: Senator Carpenter.

Senator Carpenter: I think, Senator Nore, you're a little ahead of the gun, I'm in sympathy with your opinion, if I understand you, I would hope we would suspend the rules, dispose of the problem, and let the Legislature rule as to solving other things that might want to be changed in the resolution. The only motion now, is to suspend the rules and bring this before the Body.

President: Senator Swanson.

Senator Swanson: Mr. President, Members of the Legislature, I would like to assure Senator Nore that the Executive Board has had some conversations among ourselves regarding this salary situation and I can assure you, Senator Nore, that the salary that is finally established will be agreeable both to the Board and to Mr. Srb.

President: Motion then, is to suspend the rules and take up the resolution today. If there is no further discussion, those in favor vote aye, opposed vote nay. Requires 33 votes. Have you all voted? Clerk will record.

Clerk: 43 ayes, 1 nay, remainder not voting.

President: Motion carried, rules are suspended. Senator Holmquist.

Senator Holmquist: Mr. President, Members of the Legislature, I move the adoption of the Resolution. Senator Nore said that this is not one of the easiest things that you do, a person when he accepts an office has a job to do and Hugo has had a job to do since 1937 relative to the Unicameral and has done a fine job which we all know. The laws of the State of Nebraska, of course, have a retirement date and, in order to be treating everybody the same, the Executive Board in 1968, I think, had in mind that Hugo should retire at that time. But the Legislative Body in January voted to keep him as Legislative Clerk for the Eightieth Session of the Legislature. And this has been done. So, the Executive Board of the Legislative Council has thought that it was one of their duties to retire Hugo Srb as Legislative Clerk and we discussed this quite a lot. Alone and also with Hugo. We arrived at the one thing, I think that was real important for the State of Nebraska and for Hugo that he is — will be commissioned to write a history of the Unicameral, and, also, to write a textbook that can be used in the schools of Nebraska, or in the schools anyplace. This is something we've needed for a long, long time. I know you people who are elected to the Unicameral, like I did, when you were elected you went around trying to find a book that would describe the workings of the Unicameral. That would give you the history of it. I couldn't find any. I finally arrived at buying this little pamphlet, I think it was put out by the League of Women Voters. Hugo is certainly capable, he has the knowledge, and I am sure that he would compile the history in a handbook that would be a tribute to him and also, I think, to the Unicameral and to the State of Nebraska. I, as Chairman of the Executive Council want to thank him for his service to the State of Nebraska and hope that in the next few years he is going to write the handbook, the history that we can use that will live long, long after he is gone from this earth.

President: Senator Swanson.

Senator Swanson: Mr. President, Members of the Legislature, I have a few remarks in regard to this resolution that I would like to share with you at this time. It seems to me that in the life of all men there does come a time when they change directions and move forward on a somewhat different course than they have pursued in the past. In my knowledge there are few men in the State of Nebraska who have given more freely of themselves, their talents and energies in public service than Hugo Srb. I'm certain that we are all well aware that the stamp of his direction and leadership, wise counsel are indelibly imprinted on this rather unique Legislative Body that we have in Nebraska. I'm certain that there is no man who has been more beloved or held in higher esteem by his peers and associates than our good friend, Hugo. But, now we come to a time when he will be pursuing a new course for channeling of his considerable talents and abilities. As Senator Holmquist has pointed out for many years people throughout Nebraska and across this nation have asked for and evidently there has been a real need for an in-depth study in text covering all phases of operation, philosophy and history of the Unicameral Legislature. And it also seems to me that a compilation and the writing and the editing of such a book is not a retirement pursuit, but it's a major undertaking. I would expect that this book would actually be a literary hallmark of sorts. It is not going to be simply a pamphlet which we hand out to people who inquire about the operations of this Body, and it's not going to be just another thesis prepared by a student at one of our State colleges or universities in Nebraska, but I feel very strongly about this matter of having this textbook, this history, this operational manual prepared. And, I, also, conceive that this would be a book that could be used by every American Government class in the State of Nebraska and there is just nobody other than Hugo Srb who is in a position to prepare such a text. We visited with Hugo about this, we tried to impress on Hugo the importance of getting at this task, of writing this book now. He's the one man who can do it and he should do it now. He had been an integral part of this Legislative system ever since its inception, and if he accepts this new challenge and assignment, I'm certain that he's going to be able to leave a tribute to his public service and life which would far exceed anything he has done up to the present time. I'm certainly not underestimating what he has done for the State of Nebraska in his position as Clerk. So, I feel that this is not a retirement assignment, but it's a new challenge and a change in direction in the life of Hugo Srb, and if Hugo undertakes to complete this task, it should be one of the best things that ever happened to the State of Nebraska.

President: Further discussion? Senator Waldo.

Senator Waldo: Mr. President, Members of the Legislature, I would have to agree with everything that has been said, I've been around this Legislature a good many years, in and out, I've always found Hugo Srb a real dedicated public servant, this has really been his life for many years, he has done a most excellent job, he has always been willing to help anyone regardless of whether you are a green senator coming in here for the first time, or someone that has been around for several sessions. I just want to say that I, and I know others all agree, that we really appreciate what Hugo has done and I think this is a real opportunity for him to continue and complete the job that he has been doing in selling the Unicameral to all the people and especially to the schools in the State of Nebraska.

President: Senator Nore.

Senator Nore: Mr. Chairman, I concur with Senator Swanson and Senator Waldo. I think sometimes we have folks before us, near us, we have a man in Hugo Srb that is one of the — probably the only Nebraskan who is carried in the Profiles of Courage by John F. Kennedy, probably we won't appreciate his services as much now as we will maybe several generations from now.

President: Senator Pedersen.

Senator Pedersen: Hugo Srb, known as Senator Srb, is an institution in Nebraska. He has been kind and considerate to me, since I've known him as a small boy. And he remains to this day a very close friend to me and I know to all of us here in this room. When on this day of importance for Hugo and for all of us, having him with us for two more years in a different capacity, will be important, we're wondering what we can say, and I'm wondering what I can say — I can best say what I want by giving forth with some statements that have been made by people who have much more wisdom that I'll ever have. Hugo's philosophy, I think, can be equated very much in a prayer that I've kept with me and one of the lines says "May I do the good I know, serving gladly here below." Hugo, for all these years has served good and well and gladly. Hugo's philosophy has certainly been this: "Sometimes when you think you're too small to do big things, then do small things in a big way." Hugo has always done things in a big way whether they are big or small. Hugo's philosophy is and always will be: "Always dream big dreams, even though you can't attain them, always constantly dream and strive." There was a Vietnam veteran who wrote a few days before he died, and maybe we can equate what he said to what we're doing here and Hugo has seen it all these many years when this Vietnam warrior said "We slip and slog and slash through our own Hell here on earth, and none of us is outcast by reason of our birth, we plod on tired legs, and we tread on infected feet, but America (and we can say Nebraska) flashes in our brains and our hearts, we take up the beat." Hugo Srb has written things for us to follow, we needed what he has written. A man once said "Isn't it strange that princes and kings, and clowns that caper in sawdust rings, and common people like you and me, are builders for eternity? To each is given a bag of tools, a shapeless mask and a book of rules, and each must make ere life has flown, stumbling block or a stepping stone." Hugo Srb has given to me a stepping stone. He has used his bag of tools wisely and, in conclusion, the one that was given to me by the head of the Optimist International, the year that he was taken away to eternal heaven, was this: "To solid granite once my name, I gave as a perpetual trust, an earthquake rent it to its base, and now it lies o'erlaid with dust. Now, this has failed in wiser mood, I turn and ask myself what then? If I would have my name endure, I'll write it on the hearts of men." Hugo has written his philosophy, his way of life, on all of our hearts, we're proud that he is going to write down what he has done and what we have done, so that those who come after us can look and say "Senator Srb really knew about the Legislature."

President: Senator Carpenter.

Senator Carpenter: Mr. President, I don't think it is necessary for me to say anything more in the area of the words that have been spoken by the previous members of this Body. We are all confronted with the element of time. And time goes very rapidly. No one knows that any more than I do. The Council had a very difficult responsibility. One that took an equal amount of courage in order to bring about a change in the thing that is self-evident. I think we ought to consider giving our Clerk something more than words. It is self-evident that, as time goes on that this Body is more or less made successful or unsuccessful by those who have the prime responsibility to correlate and to make this Body efficient from a standpoint of the projection and the work and the continuance and the continuity of the words and the language. I don't think there is any operation, insofar as the Clerk's office that is operated any more efficiently insofar as courtesy and availability of information and interest and desire to help than the whole staff that's been under the Clerk of this Legislature. On the other hand, we do realize, and I think that this is the proper time to say it, that as long as we are going to make a change, and I presume we are, I think we should, we ought to make a complete change. Because, insofar as my observation is concerned — now I'm not talking about the Clerk's office — there is a lack of continuity, there's a lack of a desire to cooperate, there's a lack of the determination where it starts and when it ends, and I realize the Council does not have the responsibility, except by indirection, is to end this. And I presume that that probably is the responsibility of former Senator Gerdes. I think and I would hope that it will work out satisfactorily. But somewhere along the line, we have to knock heads together, and we've got to streamline this thing and cut out a lot of nonsense that now exists in the overall structure of the operation of this Legislature in our employee structure. Because the State of Nebraska, I think, is on the verge of a great area of progress which ultimately becomes the sole responsibility of this Legislature now, as in the future. But, I do think we owe Hugo Srb something besides words. And I'd like to change the Resolution in the area of the proper place. That beginning January 1 of next year that Hugo Srb be employed for a period of not to exceed two years at the same salary he is now getting and with the understanding that if, and when, it is necessary for him to incur expenses beyond what is available in the City of Lincoln, he be reimbursed to that extent with, of course, the approval of the Council itself. And I so move.

President: Senator Carpenter, would it be appropriate with you if we adopt that — that the Executive Board would assume that to be the direction of the Legislature, rather than to be inserted in the wording of the Resolution?

Senator Carpenter: Yes.

President: Any discussion on the Carpenter motion? Seeing none, those in favor signify by saying aye, opposed nay. Motion carried.

Further discussion on the Resolution? If not, the Chair would request the Members record their vote for this Resolution by standing and give Hugo the type of hand that I know would express the collective appreciation of his service. (Applause) The Chair would declare the Resolution unanimously adopted.

Mr. Srb: Mr. President, may I speak for a moment or two here. I talked at the Cornhusker at a specific meeting one time and when I started they gave me such a complimentary introduction that everybody stood up when I got up to speak and I said that was very unusual, I'd rather they'd save it until after I got through, if they felt that way. I got two that way. But, I've always felt that it would be nice if we could do things for people while they are alive, not to wait until afterwards, many times we hear that. Certainly no more eloquent things could have been said, I don't feel, than you have said and I know having been in politics, I know it would have been very easy to have had someone file and run in opposition if you hadn't been in favor of what I was doing, and if you didn't think I was doing an acceptable job. I appreciate everything you have said, I do get disturbed, as you do with the many problems that you have to face. And I've always felt that I was more or less on both sides of the fence. I was working here and at the same time I was thinking about what you are having to do, and one time my senator said "It looks like we have two senators." I wasn't trying to tell him what to do, but I get disturbed about things that you are facing, the problems. When I've talked to groups, I've tried to impress them with the responsibilities that go with serving in the Legislature. The Committee system where all your committees are meeting at the same time, you can't know what is going on in the other committees, a great share of the time you don't know what is going on in yours. You are going to have to appear on bills in other committees. You may be called out by one of your 30,000 constituents and you lose out on the discussion on the floor, and then you are required to vote for or against what you believe to be the best interests of the State. It's been a most rewarding thing, I used to start, when I'd talk to somebody, I'd say, I remembered a man who came out on the street one day, and he said "Now, I may not be so good, but, by golly, I'm different!" Well, that applies to me as the Clerk of a one-house Legislature, I may not be so good, but I was among all the others, I was different. And so, I would tell them at one of our national meetings, I told something at one of our banquet meetings and then the next year the man came back, he was the Clerk of the Legislature from Minnesota, he said "What was that story you told about at the last meeting?" He said "I repeated it at several meetings and then I forgot it. It had something to do with a cemetery." And I tried to think back and when I went back that evening, finally I thought of it, it said that the man was so sold on what he was doing, at that time I was talking of the Unicameral, we got into a discussion, he said, this man was so sold on what he was doing that when he died he had this inscription put on his tombstone. He said "See, I told you I was sick." When I talk about the Legislature, there are four things that I stress. I say that this Body is the most representative because you increase the size of the District. We've had three Representatives and one Senator so we've had a larger district, for one individual. And, it's easier for the people to know what the workings of the man of that district is. Second, I think it's the most responsible Legislature in the country. Under the constitution any member can ask for a record vote on any proposition, that which is necessary and forthright. There is no escaping your responsibilities here. It's a most difficult job. Third, I think it is the most efficient, in spite of some of the inefficiencies that exist. It does add more efficiency, it should and it does. Because you only have one house, whereas if you had two, you'd have to do all the same things over. You'd have to have two hearings and if they couldn't agree, you'd have the conference committee. Actually the power that went to that small six-member group and that's the thing that I think you have to study, and work on to keep the responsibility right here in this Body. Norris said it would be the most important, the most powerful Body in the world. You can check me on that. That is the law, governed by your constitution of limitations. So, to serve in the Body, is an extreme privilege, the highest lawmaking body in the state. I think because of the smallness of the salaries, that they don't recognize what your tasks are, what your responsibilities are, and how hard you work, the hardest working and responsible men to be selected by the people, in whom I've had the highest esteem. I don't agree with all the motions and all the bills that are passed here, and you don't, but that's the system and if you had the difficult task of deciding what shall it be, either black or white? That would be easy, but as these things move back and forth—ideas, the most challenging thing is ideas, those ideas move back and forth, amended so that sometimes you wouldn't vote for your own bill after it's amended, things of that type, and that's what I try to say when I speak to groups. I remember your father, Senator Warner, when I talked with him one time. When I got through he said, "You sure elevate that Legislature". Well, I feel they have earned it, you have done a good job. I want to say that I share the same frustrations as Senator Carpenter has when he stands up here and says, "Why can't we do some of these things that ought to be done?" "Why do we have to pass a bill in the Legislature, then pass another bill to get the money to do it?" That shouldn't be necessary. We were getting that money through, like we amend the bills. We'll have something to go right along with it, but it is still two bills. I think the Constitution ought to be worked out so that we can do that. Some bills in the past, in the bicameral, I think the bills had the appropriations and the other in one bill. I'd like to do some research on that if the Legislature would like in connection with my study, or have some of your attorneys here do this research. But I do appreciate everything you have done and it's more than I deserve. Thank you very much.

President: Senator Swanson.

Senator Swanson: Mr. President, Members of the Legislature, I regret that we do not have available this morning for formal presentation to Hugo the suitably inscribed plaque which the Executive Board is arranging, and we'll be taking care of that some weeks from now when the plaque is finished. But I did want this Body to know that we do have a suitable memento of this occasion and it will be presented to Hugo at a later date.

President: Senator Proud.

Senator Proud: I'd just like to say to Hugo that when he writes his book, before he writes the chapter on a non-partisan Legislature, I hope he will consult me.

President: Senator Holmquist.

Senator Holmquist: Mr. President, Members of the Legislature, in one of the in-depth studies put out by the School of Journalism at the University of Nebraska, they labeled Hugo Srb as "Mr. Unicameral" and I would like for Senator Swanson and Senator Pedersen when they make up the material for this plaque that they consider calling Hugo Srb "Mr. Unicameral" and having it inscribed on it.

Mr. Srb: May I say a word about that. You know, I used to try to decide who really was the "father of the Unicameral" since John Norton is the one that first presented the bill for a one-house Legislature in 1913, and in 1917 he presented it, in 1920 in the Constitutional Convention they almost got it over then, to have it submitted to the people, but it wasn't until 1934 before they finally got it on the ballot. So the question is, who is the father? But I certainly wouldn't call myself that. I've always thought of myself as the mother. I was going to keep it going, I felt some of the responsibility was mine.

President: Senator Holmquist.

Senator Holmquist: Mr. President, Members of the Legislature, maybe we'd better change that to "Mrs. Unicameral".

President: The Chair suggests, I understand that the recording machine was working, and certainly the resolution and the comments made by the Senators prior to the adoption and Hugo's remarks should be included as part of the official records in the Journal. If there are no objections. So ordered.

The Honorable Fern Orme
Nebraska State Senator
State Capitol Building
Lincoln, Nebraska 68509

Dear Senator Orme:

Mr. Walter Dennis, Safety Inspector of the State Department of Labor, and I reinspected the Home Economics Building on the University of Nebraska East Campus relative to the depth of damage done by termites.

To intelligently inspect the building would require removing considerable areas of inside finish, such as ceiling tile, plaster, flooring, etc.

Open areas in the basement, particularly in the south and west portion show termite damage. The selected areas directly above this portion reveal a definite weakness in the flooring.

Termite activity within the building has not been arrested; live termites were discovered and viewed in all termite runs that were opened.

At this point, it is impossible to determine the structural stability of the building relative to the safety of the occupants. The load bearing capabilities of the building are changing daily, controlled only by the activities of the termites.

In due time, if the termite activity is not arrested and structural portions of the building reinforced or replaced, both Mr. Dennis and I are positive an architect or structural engineer would declare the building untenantable and unsafe for occupancy.

Respectfully yours,

(Signed) Don H. Venter, State Fire Marshal

September 19, 1969

The President, The Speaker and
Members of the Legislature
State Capitol
Lincoln, Nebraska

Senators of the Eightieth Session:

I am returning LB 979 without my signature for the following reasons:

1. The boundaries of the districts established by LB 979 are inconsistent with the planning and development region boundaries established earlier by me pursuant to the directive of the Bureau of the Budget of the United States Government in anticipation of the directions outlined in LB 536, passed earlier this Legislative Session. If we are to make a serious effort to avoid duplication and to provide for energetic and reasonable growth of our State, we must do so along the guidelines set out by the Planning and Development Regions. No effort apparently was made to conform the district boundaries in LB 979 with the boundaries of the Planning and Development Regions, although effort was made on behalf of my office to obtain consistency. Although there are many examples of inconsistent boundaries in the bill, the most glaring is the location of Saunders County, a county with close and increasing ties with both the Omaha and Lincoln areas, in the same district as such towns as Alma, Holdrege, Kearney, Grand Island, and Ord. While this association is wrong now, it certainly would be even more wrong with each passing year.
2. A second reason that I am returning LB 979 without my signature is found in the potential unconstitutionality of the bill. The objections found in the Attorney General's opinion on LB 979 dated June 12, 1969, have not been eliminated. There are still serious questions about this bill being invalid class legislation, violating the separation of powers, and impairing rights of contract guaranteed by the full faith and credit provisions of the Constitution, both of Nebraska and the United States. I attach a copy of that Attorney General's opinion for your review.
3. While the funding for LB 979 has not as yet been fully determined, it appears that it might run as high as $3,000,000 or more. I do not believe that we should spend that amount of money at this time for a bill which seriously violates the planning and development efforts we are making in the State and that has such strong aspects of unconstitutionality about it.

I do not oppose the concept of coordination of Community College and Vocational Technical School development. Likewise, I do not oppose the concept of increased Vocational Technical Schools. I strongly supported LB 177 to establish such a Vocational Technical School and have continually stressed the need for such schools in our State. At the same time, however, I feel that the over-riding problems in LB 979 are so great that I cannot sign the bill.

Respectfully submitted,

(Signed) Norbert T. Tiemann, Governor

Enclosure

June 12, 1969

Senator William M. Wylie
Nebraska State Legislature
State Capitol
Lincoln, Nebraska

Dear Senator Wylie:

This letter is in response to your inquiry regarding the authority of the Legislature under L. B. 979 to completely do away with a system of vocational technical schools heretofor established and where taxes have been levied for the specific purpose of providing vocational and technical education programs of instruction.

If enacted into operative law, L. B. 979 would divide the State of Nebraska into eight (8) community college areas, each of which would be governed by a community college board. Title to all interest in real estate, choses in action and all other assets, including but not limited to assignable contracts, cash, deposits in county funds, equipment, buildings, facilities, and appurtenances thereto held by or for a local school district or an area vocational-technical school and obtained identifiably with federal, state or local funds appropriated for junior college purposes or post-high school vocational technical education purposes are to vest in or be assigned to the appropriate community college board. However, the ultimate decision and approval with respect to the allocation and disposition of the assets under this section is to be made by the Governor and his decision may be appealed to the courts. See, renumbered section 12 of L. B. 979.

It is, of course, common knowledge that all parts of the State of Nebraska are not included in a junior college district. It is also common knowledge that all parts of the State of Nebraska are not included in the territory of an area vocational technical school. It is therefore patent that L. B. 979 does not operate uniformally on those persons presently within either a junior college district or the territory of an area vocational technical school, or both, and those persons who are not presently within either a junior college district or the territory of an area vocational technical school. Simply put, L. B. 979 does not operate alike upon all parts of the

State of Nebraska since some parts of the State would be forced to surrender the assets of their junior college district or vocational technical school, or both, to a community college area whereas other parts of the State are not required to surrender any of existing assets whatsoever to a community college area. It would therefore appear, and it is our opinion, that L. B. 979 is invalid class legislation. See, section 18 of Article VII of the Constitution of Nebraska; Steinacher v. Swanson, 131 Neb. 439, 269 N. W. 317; United States Cold Storage Corp. v. Stolinski, 168 Neb. 513, 96 N. W. 2d 408. The fact that L. B. 979 also provides that the ultimate decision and approval with respect to the allocation and disposition of the assets is to be made by the Governor and his decision may be appealed to the courts does not, in our opinion, cure the defect of invalid class legislation but adds another constitutional demension to the act. Simply put, the same violates the separation of powers guaranteed by the Constitution.

There are several collateral constitutional issues. Neb. Rev. Stat. §79-1445.29 (Supp. 1967) permits the governing board of an area vocational technical school to borrow money and issue bonds of indebtedness. These bonds are protected by the full faith and credit provisions of the Constitution of Nebraska and the Constitution of the United States. Neb. Rev. Stat. §79-1438.01 (Reissue 1966) authorizes the State Board of Vocational Education to issue revenue bonds for the purpose of constructing dormitories at the Nebraska Vocational Technical School at Milford and it has done so. These revenue bonds are also protected by the full faith and credit provisions of the Constitution of Nebraska and the Constitution of the United States. To the extent that the security of these two types of bondholders would be impaired by the enactment of L. B. 979, serious constitutional questions would arise and quite possibly the bondholders would be entitled to an injunction or monetary damages, or both.

In summary, we are of the opinion that the constitutionality of L. B. 979 would be very difficult to defend. If we may be of any further assistance to you in this matter, you need only to advise.

Very truly yours,

CLARENCE A. H. MEYER
Attorney General

LEGISLATIVE JOURNAL—EIGHTIETH SESSION

ONE HUNDRED SIXTY-FOURTH DAY

Legislative Chamber, Lincoln, Nebraska
Tuesday, September 23, 1969

Pursuant to adjournment, the Legislature met at 1:30 p.m., Speaker Warner presiding.

Prayer was offered by the Chaplain.

Prayer

Speak, silent God, for we wait upon Thee with expectation. Move, motionless God, for we yearn to see Thee in life. Create, creator God, for we look for Thy works in our days. Save, redeemer God, for without Thee life is a great probing after light. Dwell with us, Thou ever present God, for apart from Thee we live alone. Live in us, Thou who art Spirit, for apart from Thee we strike in vain to build the structures of peace and certainty in this state. Thus do we invoke Thy presence in our lives not because Thou dost ever absent Thyself from us but because we absent ourselves from Thee. Amen.

The roll was called and all members were present except Messrs. Carpenter, Danner, Klaver, Knight, Kremer, Mahoney, Marvel, Simpson, and Skarda, who were excused; and Mr. Waldron who was excused until 2:35 p.m.

Election of Members to the Nebraska Constitutional Revision Commission

Mr. Holmquist presented for consideration the nominees selected by the Executive Board of the Legislative Council for election to serve on the Nebraska Constitutional Revision Commission as set forth in LB 244.

Mr. Holmquist asked unanimous consent to have the following Attorney General's opinion on LB 244 read to the members and printed in the Journal. No objections. So ordered.

September 22, 1969

Senator C. W. Holmquist
Nebraska State Legislature
State House
Lincoln, Nebraska

Dear Senator Holmquist:

This is submitted in accordance with your suggestion, made after our conversation this morning relative to L. B. 244. That bill deals with the creation of a Constitutional Revision Commission. I have taken a personal interest in the bill because I feel that the Commission could be a very effective group in developing needed changes in our State Constitution.

It is suggested that the Legislative members of the Commission, at the first meeting, give such assurance as they can to the other members of the Commission that any recommendations for constitutional changes agreed upon by a substantial majority of the Commission will not be amended in the Legislature; that they will either be submitted to the people in the form recommended by the Commission, or they will be killed; that if members of the Legislature disagree with the wording recommended by the Commission, they will be urged to submit a separate bill containing their ideas, and that both proposals will then be submitted to the people in accordance with the part of our Constitution which provides that, "If conflicting measures submitted to the people at the same election be approved, the one receiving the highest number of affirmative votes shall thereby become law as to all conflicting provisions."

Here is the principal reason for making such a suggestion. The Commission has a tremendous assignment. Developing appropriate language for a constitutional amendment involves a great deal of thought and research if the job is to be done properly. It means reading many opinions of the Supreme Court to determine what effect the present language has on state government. It means a great deal of research to determine the effect of new language. It means that the members of the Commission are going to have to become thoroughly familiar with the entire Constitution, and not just parts of it, to make certain that proposed changes fit in with other parts of the Constitution.

It further occurs to me that such a policy of no amendment of Commission recommendations is in accord with the language of L. B. 244, because Section 4 provides:

> "* * * The recommendations of the commission shall be considered at the next regular session of the Legislature to determine *which* of them, if any, *should be submitted* to the voters *for approval or rejection.*"

It would be even more helpful if the entire present Legislature would give such assurance as it can that recommendations of the Commission will be submitted or rejected by the Legislature, but will not be amended.

Very truly yours,

(Signed) Clarence A. H. Meyer
Attorney General

Wednesday, September 24, 1969

Pursuant to adjournment the Legislature met at 9:00 a.m., Speaker Warner presiding.

Prayer was offered by the Chaplain.

Prayer

Heavenly Father, in this moment of prayer, when there is silence in this senate chamber, may there not be silence in Thy presence; may each of us be praying to Thee, and may our prayers be heard. May no short circuits be made by our lack of faith, our high professions joined to low attainments, our fine words hiding shabby thoughts, or friendly faces masking cold hearts. Out of the same old needs, conscious of the same old faults, we pray on the same old terms for new mercies and new blessings. In the name of Jesus Christ our Lord. Amen.

Message from the Governor

September 19, 1969

The President, The Speaker and
Members of the Legislature
State Capitol
Lincoln, Nebraska

Dear Senators of the Eightieth Session:

You have come to the end of a long, arduous and powerful legislative session. In this brief farewell message, I would like to congratulate you, not only for physically enduring throughout these 165 legislative days, but, more seriously, congratulate you for reviewing and passing such a great amount of far-reaching legislation.

Reviewed in perspective with the last previous legislative session, this session must be differently labeled. The earlier session made real breakthroughs in traditional attitudes of Nebraska citizens toward state government. Real and meaningful changes were made not only in specific programs, such as a fair tax system, local tax relief through state aid to schools, cities, and counties, etc., but also in the attitude of the citizens of our state. That was an excruciatingly difficult session, not from the point of view of time spent by the senators or the number of bills reviewed, but from the point of view of the difficulty of the problems presented and the solutions proposed.

This current session necessarily built itself upon the foundation of that earlier session and will be judged historically in relationship to that session. A flood of legislation has been urged upon you by your constituents, a flood that probably became as large as it did because of last session's desire to focus on fewer and individually more momentous bills. You have survived that flood well.

One must not conclude from the fact that you reviewed many bills that the bills were not significant. A most far-reaching package of highway legislation was passed during this session—a package that surpassed all earlier efforts at developing our highway program. Future generations will benefit from your foresight in this field. National landmark bills have been passed in the field of penal corrections and investment of state funds, and major bills have been passed in personnel, mental health, re-organization of government, state planning, and many other areas. Many of these bills not only will provide better service to the citizens of our state, but will permit long-run savings of tax dollars.

Perhaps most important to me, you passed the Nebraska Civil Rights Act of 1969, the Open Housing Bill that our Constitution has promised all citizens of the state for 100 years. Your wisdom in passing this bill was deeply appreciated by all citizens of the state, not only because legally it was the correct thing to do, but also because morally it was the right and honest thing to do.

Without dwelling further on major pieces of legislation, let me publicly commend the Little Hoover Commission for its efforts during this legislative session . . . and you for your understanding of the problems faced by the Commission. Many of their ideas were implemented administratively, and among those which required your action a great number were passed and many of the remainder are awaiting further consideration by you during upcoming sessions. This is the most important effort ever made in our state to combine the thoughts and suggestions of businessmen with the political acumen of our elected representatives to create ideas which will benefit all citizens of Nebraska.

We have had some disputes during this session. I think that is natural. No session as long as this one and involving as many bills as this one could be free of such disputes. As Governor, I feel strongly about the power of the Executive Branch as outlined by the Constitution. I recognize that you, as senators, feel just as strongly about the powers of the Legislative Branch. In most instances, our disputes can be traced to our differences of opinion concerning the relative powers of these two branches. Fortunately, the framers of our Constitution provided an arbitrator for such disputes, namely, the Supreme Court. Over the next few months I'm sure that the Court will decide many of these disputes.

Again, my sincere best wishes to all of you.

Very truly yours,

(Signed) Norbert T. Tiemann, Governor

MESSAGE FROM THE GOVERNOR

September 26, 1969

The Honorable Frank Marsh
Secretary of State
State Capitol
Lincoln, Nebraska

Dear Secretary Marsh:

I am vetoing LB 1422 and filing it and my objections to it with you pursuant to Section 15 of Article IV of the Constitution of the State of Nebraska. In that article it states:

> "Any bill which shall not be returned by the governor within five days (Sundays excepted) after it shall have been presented to him, shall become a law in like manner as if he had signed it; unless the legislature by their adjournment prevent its return; in which case it shall be filed, with his objections, in the office of the secretary of state within five days after such adjournment, or become a law."

My objections are as follows:

1. I am against further proliferation of state departments. There is no need to create an additional department to handle the functions currently being handled by the Telecommunications Division of the Department of Administrative Services. We have made an attempt throughout my administration to consolidate departments of state government. Acceptance of this proposed bill as law would run directly contrary to those efforts.

2. Although it appears that there has been no additional funding established by the Legislature for the proposed new department, it is quite clear that we would be spending additional money in the future simply because of the department status of this activity. Such additional funding to support an unnecessary organizational layer is unreasonable.

3. LB 605, passed during the 77th session of the Legislature, was a well thought out, well conceived, and heavily debated bill. The situation has not changed sufficiently since the passage of that bill to justify a radical change in organization. The division of Telecommunications still belongs, like all other service divisions, within the Department of Administrative Services.

My veto of this bill does not in any way reflect a changed attitude on my part with respect to our careful, business-like approach to consolidated communications in Nebraska. We will proceed with all deliberate speed to do everything in the area of telecommunications which will benefit the citizens of our state.

Respectfully submitted,

The Honorable Frank Marsh
Secretary of State
State Capitol
Lincoln, Nebraska

Dear Secretary Marsh:

Pursuant to Section 15 of Article IV of the Constitution of the State of Nebraska, I am disapproving and vetoing Section 2 of LB 552. That section in its entirety read as follows:

> "There is hereby appropriated from the unexpended balance existing on June 30, 1969, in the State Building Fund $1,015,000 and for the 1969-71 biennium $1,225,000 to the University of Nebraska for the construction of a Home Economics facility on the East Campus, the total cost of such facility not to exceed $2,240,000 from state funds."

I am not disapproving or vetoing any of the remainder of LB 552.

My objections are as follows:

1. As I stated previously on September 4, 1969 when I vetoed this item in LB 1425, I am convinced that state government can best serve the citizens of the state by not constructing this facility at this time.

2. The Board of Regents of the University of Nebraska placed a very low priority on this item. I agree with that priority listing. Compared with other needs in our state, the need to construct this facility must necessarily be a low priority item.

Respectfully submitted,

The Honorable Frank Marsh

Dear Secretary Marsh:

Pursuant to Section 15 of Article IV of the Constitution of the State of Nebraska, I am disapproving and vetoing LB 566 and filing it with you with my objections.

My objections are as follows:

1. This bill does not require that the children for whom tuition is required be the children of state employees. Children of any employees required by their employers to reside on tax exempt land owned or controlled by the Game Commission or the State Board of Education would be eligible for tuition payments from the state general fund. As a matter of public policy this should not be encouraged.

2. It is extremely difficult to determine what expense we are creating for the taxpayers with this bill. Cost figures are extremely difficult to arrive at, particularly since children of persons other than state employees might be involved in receiving tuition payments from the Game Commission. I do not approve of such open-ended legislation.

3. No money was appropriated by the Legislature to fund this bill and it is clear that no payments can be made under the bill because of the lack of funding. I see no need to create a law which requires funding to be effective and then not fund it. Such bills should not become laws.

Respectfully submitted,
